SPILLED Ink

HANDWRITTEN TYPEFACE
designed to complement
illustrations

Spilled Ink is a handwritten typeface designed to complement illustrations. Inspired by the idea of spilled ink that spreads and fills the shape of letters. Therefore, the symbols do not have sharp corners and looks smooth, soft and cute. Spilled Ink is intended for use in headlines, so lowercase have the same height as uppercase, allowing them to be used as alternates. Make your stories fabulous with Spilled Ink!

The typeface includes 1267 glyphs and supports up to 480+ languages.
